About me

Software engineering student passionate about software development and innovative technologies. Seeking an internship to apply my programming and software design skills as a full-stack developer or data scientist.

Personal

Yasser Saidani
Tunisian Nationality
Bizerte, Tunisia

Specializations

Full-Stack Development
Mobile Development
Data Science
Software Architecture
Quality Assurance

Interests

Programming • AI
Problem-Solving
Cybersecurity
Web Development
Video Games

Methodologies

`UML Modelling`
`Software Design`
`Algorithms`
`Data Structures`
`JUnit / Katalon`
`Selenium / Git`

Professional Experience

Aug–Sep 2026 — **Full-Stack & AI Developer Intern**
Dynamix Services, Bizerte
Built **Nexus ERP**, an HR platform with built-in AI and business intelligence: employees, leave, reviews, recruitment and KPI dashboards.
• Spring Boot REST API (JWT, role-based access, Flyway) and Angular web app with a public careers site.
• AI recruitment: LLM-based CV analysis and candidate ranking, semantic CV search (pgvector), HR chatbot turning questions into safe SQL queries and charts.
• Attrition-risk prediction (XGBoost + SHAP), training-budget advisor and Python ETL pipeline into PostgreSQL.
• **Stack:** Angular, Spring Boot, FastAPI, PostgreSQL, LLMs (Groq, Ollama), Docker.
• `https://github.com/yesser147/Smart_ERP`

July 2025 — **Full Stack Developer Intern (Django)**
Vnext Consulting, Tunisia
Design and development of a web application for managing refugee camps on behalf of the Tunisian State.
• Centralized data (refugees, tents), managed stocks/donations and coordinated field teams.
• **Stack:** Python, Django, PostgreSQL, Bootstrap 5, Git.

Education

2024–2025 — **Engineering Cycle**
Software Engineering
Faculty of Sciences, Bizerte

2022–2024 — **Preparatory Cycle**
Integrated
Faculty of Sciences, Bizerte

2018–2022 — **Technical Baccalaureate**
Distinction
Lycée Farhat Hached

Programming Skills

Languages:
Python • Java • C++ • JavaScript
PHP • Go • HTML/CSS • Dart

Frameworks:
Django • Spring Boot • Flutter
Express.js / Node.js • Angular

Databases:
MySQL • PostgreSQL • Oracle
MongoDB • HBase

Academic Projects

2025 — **AI-Powered University Management Portal**
Express.js · Autonomous AI Agent · Web, Academic
Advanced university administration system featuring an autonomous AI agent capable of querying the database and running automated verification pipelines.
• Engineered automatic absence tracking and AI-driven validation workflows.
• `https://github.com/yesser147/PFA`

2025 **IoT Vehicle Tilt & Anomaly Detection System**
React · Arduino · MQTT · Supabase, Academic
Gyroscope-based IoT system detecting abnormal vehicle tilt or movement and sending real-time alerts to a Telegram group.
• Programmed Arduino Uno with gyroscope sensor; transmitted data via MQTT protocol.
• Used Supabase for real-time data storage and Hive for local caching on the React front-end.
• `https://github.com/yesser147/SafeRide`

2025 **Mobile App — University Attendance Tracking**
Flutter · XAMPP · MySQL, Academic
Full mobile app with admin and teacher dashboards for real-time student attendance management.
• Dynamic management of students, teachers, and classes.
• `https://github.com/yesser147/projet_mobil`

2025 **University Enterprise Network Architecture**
EVE-NG · Cisco iOS · Routing, Academic
Designed, deployed, and simulated a comprehensive university network topology layout with secure access controls and routing policies.
• Established isolated network environments with distinct privilege levels and bandwidth limits for Administrators, Teachers, and Students.

2025 **Full-Stack Professional Network Platform**
Express.js · Node.js · MongoDB, Academic
LinkedIn-style platform — profile management, social feeds, and backend relation mapping with secure authentication.
• `https://github.com/yesser147/linkedinSocialMedia`

2024 **Data Classification & Visualisation**
Python · Machine Learning, Academic
Classification pipelines with automated preprocessing and performance visualisation. Stack: Scikit-learn, Pandas, Matplotlib.
• `https://github.com/yesser147/ml`

2024 **Desktop Professional Networking App**
Java 8 · JavaFX · Scene Builder, Academic
Professional networking desktop interface with smooth graphical interaction management.

Certifications

DataCamp	Introduction to Airflow in Python
DataCamp	Introduction to Docker (Part 1)
DataCamp	Intermediate Docker (Part 2)
Certiport	Microsoft Specialist PowerPoint
Certiport	Microsoft Specialist Excel
Certiport	Microsoft Specialist Word

Languages

Arabic	Native	Mother Tongue
English	Fluent	●●●●○
French	Intermed.	●●●○○
German	Basic	●○○○○

Soft Skills

• Teamwork • Communication
• Time Management • Problem-Solving
• Leadership
